

Dr. Ja-Eung Koo

Senior Material Research Scientist, CMP, DuPont,
Korea

Ja-Eung Koo is a material research scientist in CMP R&D team of DuPont. He received the Ph.D. degree in department of Chemistry from KAIST in 2002. Starting from 2002, as an engineer in CMP Process Development team of Samsung Electronics, he was involved in searching for next generation CMP processes with new pads, slurries, and chemicals. Since 2022, he moved to DuPont and has been working for CMP pad development.
